Eye contact:

Skin contact:

Inhalation: Ingestion:

Aggravated Medical Conditions:

 attention immediately.

 Remove and wash contaminated clothing and footwear before re-use. Get medical attention immediately.

 Immediately.

 If breathing is affected, remove to fresh air. Get medical attention immediately.

 Never give anything by mouth to an unconscious person. Do not induce vomiting. Get medical attention immediately.

 Conditions:

 Individuals with chronic respiratory disorders such as asthma, chronic bronchitis, emphysema, etc., may be more susceptible to irritating effects

Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Get medical

## **5. FIRE-FIGHTING MEASURES**

Suitable extinguishing media: Specific hazards: Unusual hazards: Specific methods: Dry chemical, water spray, foam. Aerosol product - Containers may rocket or explode in heat of fire. Corrosive material (See sections 8 and 10). Use water spray to keep fire-exposed containers cool. Aerosol Product - Containers may rocket or explode in heat of fire.

Special protective equipment for firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear

Extinguishing media which must not be used for safety reasons: No information available

#### 6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Environmental precautions and clean-up methods: Remove all sources of ignition. Put on appropriate personal protective equipment (see Section 8.). Sweep up and shovel into suitable containers for disposal. Prevent product from entering drains. Soak up with inert absorbent material. Use a water rinse for final clean-up.

## 7. HANDLING AND STORAGE

#### Handling:

Avoid contact with skin, eyes and clothing. Avoid breathing vapors or mists. ALWAYS WEAR LONG CHEMICAL-RESISTANT GLOVES, CHEMICAL-SPLASH GOGGLES AND PROTECTIVE FOOTWEAR WHEN SPRAYING AND WIPING. Do not spray toward face. Wash hands and arms after use. Do not spray on or let spray contact pilot light, electrical connections, switches, light bulbs, heating elements, receptacles, or thermostats. Spray may cause electric short. Do not let product contact floor coverings, linoleum, aluminum, copper, chrome, painted surfaces or plastics. Do not use on continuous or self-cleaning ovens. FOR COMMERICAL AND INDUSTRIAL USE ONLY. **Storage:** 

Protect from freezing. Keep out of the reach of children. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 degrees C or 120 degrees F. Do not pierce or burn, even after use. Store in a cool, dry, well ventilated area away from heat or open flame.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

#### Engineering measures to reduce exposure:

Good general ventilation should be sufficient to control airborne levels Respiratory protection is not required if good ventilation is maintained.

| Personal Protective Equipment |  |
|-------------------------------|--|
| Eye protection:               | Chemical-splash goggles.   |
| Hand protection:              | Chemical-resistant gloves neoprene gloves rubber gloves Includes   |
| Skin and body protection:     | If major exposure is possible, wear suitable protective clothing and footwear. Boots, Chemical resistant   |
| Respiratory protection:       | In case of insufficient ventilation wear suitable respiratory equipment. A respiratory protection program<br>that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever<br>workplace conditions warrant a respirator's use. |
| Hygiene measures:             | Handle in accordance with good industrial hygiene and safety practice  |

| Ingredient(s)    | CAS #     | ACGIH                         | OSHA                         | Mexico  |
|------------------|-----------|-------------------------------|------------------------------|---|

| Isobutane        | 75-28-5   | 1000 ppm (TWA)                |                              |   |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Aerosol Appearance: Aerosol Specific gravity: 1.049 Vapor density: No information available Boiling point/range: Not determined Decomposition temperature: Not determined Solubility: Completely Soluble Bulk density: No information available Evaporation Rate No information available Color: Tan Odor: Citrus Melting point/range: Not determined Autoignition temperature: No information available Density: 8.49 lbs/gal 1.049 Kg/L Solubility in other solvents: No information available Partition coefficient (n-octanol/water): No information available Elemental Phosphorus: 0 % by wt. pH: 13 Explosion limits: - upper: Not determined - lower: Not determined Flash point: < 20 °F < -7 °C Viscosity:No information available VOC: 7.9 % \* Dilution pH: No information available.

\* - Title 17, California Code of Regulations, Division 3, Chapter 1, Subchapter 8.5, Article 2, Consumer Products, Sections 94508

## **10. STABILITY AND REACTIVITY**

| Stability:                        |
|-----------------------------------|
| Polymerization:                   |
| Hazardous decomposition products: |
| Materials to avoid:               |
| Conditions to avoid:              |

The product is stable Hazardous polymerization does not occur oducts: None reasonably foreseeable. Strong oxidising agents. Strong acids. Keep away from open flames, hot surfaces and sources of ignition.

## **11. TOXICOLOGICAL INFORMATION**

| Acute toxicity:<br>Component Information: | Corrosive; Oral LD50 estimated to be between 2000 - 3000 mg/kg<br>See Section 3 |
|---|---|
| Chronic toxicity:                         | None known  |
| Specific effects<br>Carcinogenic effects: | None known  |
| Mutagenic effects:                        | None known  |
| Reproductive toxicity:                    | None known  |
| Target organ effects:                     | None known  |

## **12. ECOLOGICAL INFORMATION**

**Environmental Information:** 

No data available

## **13. DISPOSAL CONSIDERATIONS**

Waste from residues / unused products: Dispose of according to all federal, state and local applicable regulations RCRA Hazard Class: D002

#### **14. TRANSPORT INFORMATION**

DOT/TDG/IMDG: Please refer to the Diversey HazMat Library, http://naextranet.diversey.com/dot/, for up to date shipping information.

DOT Bill of Lading Description: CONSUMER COMMODITY, ORM-D

IMDG Bill of Lading Description:
